

ARK Merry Christmas

We are releasing our on line note . This time of year puts everyone into a giving mood. We figured it is a good time to drop the first ever installment of the Ark Note. Our goal for each installment is to create conversations. We want to create conversations between companies, individuals, bosses, employees, dock workers, receptionists, family and friends. Good conversations are important. When there is mutual interaction between two parties there is no limit to the potential.

All too often we are spoken to or talked at. We are continually fed information which is usually one way. We hope to be a conversation starter and an inspiration. If you have any cool ideas or topics please let me know you can email me direct at ahurst@arktransportation.com.

First Christmas card ever.

Because this is the **Christmas installment** of the Ark Note our focus will be on the Holiday. As we researched the origins of the holiday we found how we arrived at the point of how the holiday is celebrated today in Western culture. It was very interesting to see how one book inspired so much. You can see the origins of how we celebrate in the fashion we do today at <http://bit.ly/5LEIRO>.

Even through all the gifts and merriment. Let us remember the reason for the season. We all were given the best gift of all.
